

There's a New Refillery in Town!

What's a Refillery?

A refillery is a place where you can bring your own container to fill/refill with household products sold on tap – just like beer – to eliminate the cost and waste associated with packaging. Some refilleries focus on food items like cooking oils, while others serve up household cleaning and/or personal healthcare products.

Why Use a Refillery?

A refillery uses much less waste, it's cheaper, and more local. Using a refillery eliminates excess packaging – esp single-use plastic. The refillery products are available to purchase by the ounce, so you only buy what you need.

Is There a Refillery Near Me?

YES - A new refillery has opened at **Start at the Bottoms**, with the following items on tap, in addition to other zero-waste and package-free products. If you don't have a container for refilling, we sell some at the store. Visit us today! We're on the first floor at Kilburn Mill in New Bedford.

Products available on tap to purchase by the ounce:

- laundry detergent
- stain remover
- disinfecting surface cleaner
- hand soap and dish soap

Start at the Bottoms 127 West Rodney French Blvd, New Bedford www.startatthebottoms.com
